Agenda 2030 | Digital ID Equals the Mark of the Beast

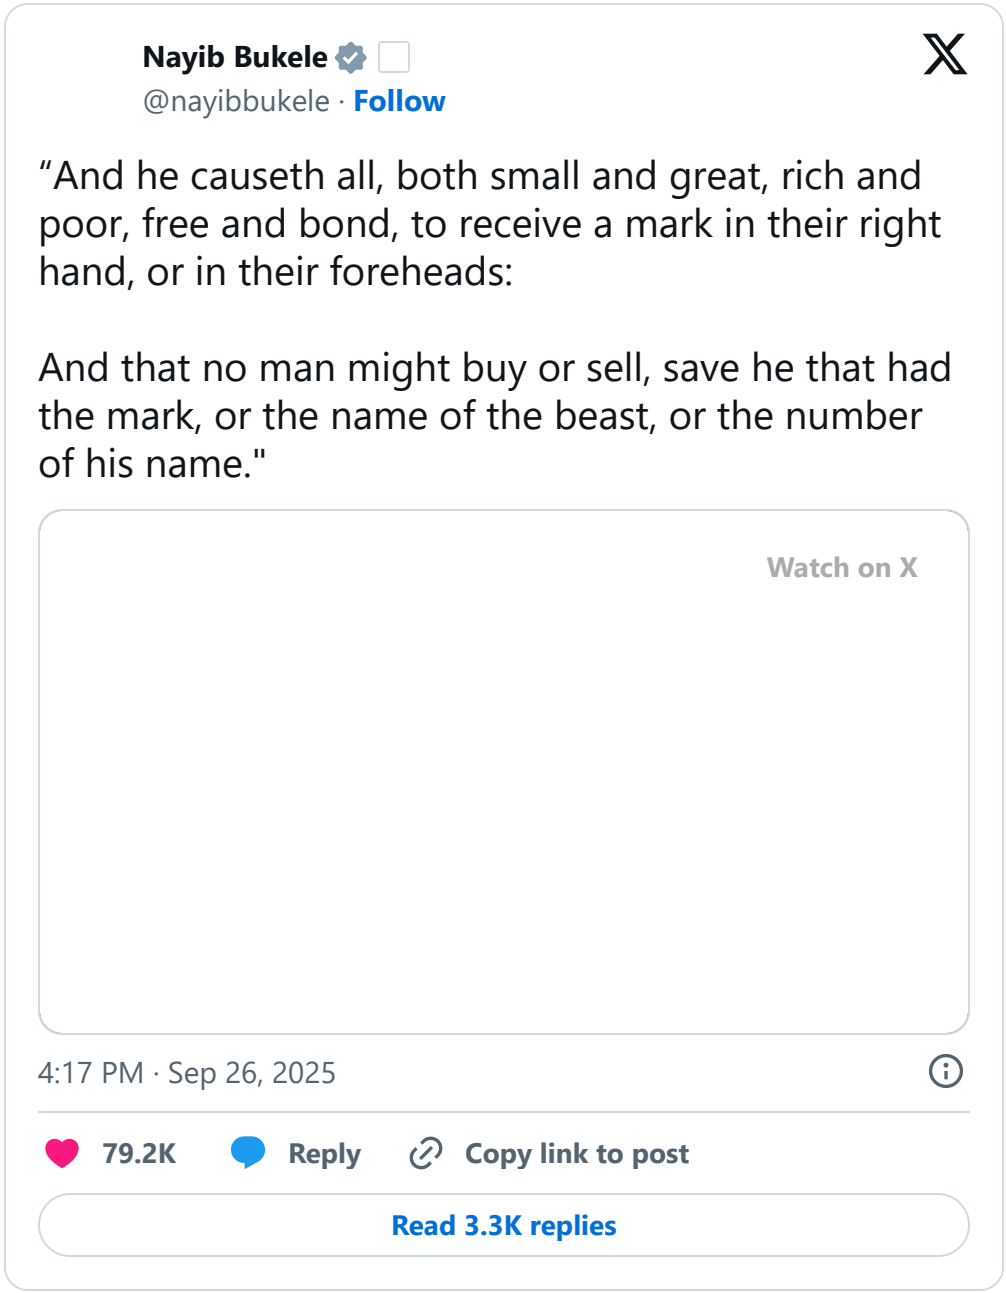
Agenda 2030 mission goals? First is a digital ID, to get everyone signed up to the universal blockchain. That is equal to the mark of the beast system of total control. Second is elimination of all cash and the implementation of digital pro centralised currencies (CBDCs). Resist it all!

Subscribe

How can the UN/World Economic Forum (WEF) oligarchs achieve their Agenda 2030 mission goals? See the list below. The first step is a digital ID, to get everyone signed up to the universal blockchain. The second step is elimination of all cash and the implementation of digital programmable centralised currencies (CBDCs).

If you DO NOT COMPLY they can turn off you bank accounts, and cancel you right to work and hold a job to earn some money to support your family. But I can tell you that I will NEVER COMPLY!

UK's PM Keir Starmer is a loyal member of the WEF. He just announced a digital ID will be implemented in the UK without which you will not have the right to work. Listen to him yourself below.



The digital ID is the linchpin that make the tyranny possible.

But you may have forgotten that in 2021 they already told us that they were going to bring us to this. Back then it was a dry run using the COVID19 bioweapon shots.

In Australia the following headline appeared in the Brisbane Courier Mail (August 26, 2021). “No Shot No Shop”. Businesses were given permission to refuse unvaxxed customers the right to buy any goods. At that time Australia’s PM Scott Morrison (also a WEF member) said that it was a “legitimate thing to do”

It is clear what the intention is then. No digital ID and no right to work and earn a living to support your family. Australian Senator Alex Antic said it in the parliament:

> "Mark my words it wont be long before digital ID will become a condition of employment in this country".

Even though he is a member of the conservative (?) opposition party he has introduced a Bill to repeal Australia's digital ID Act.

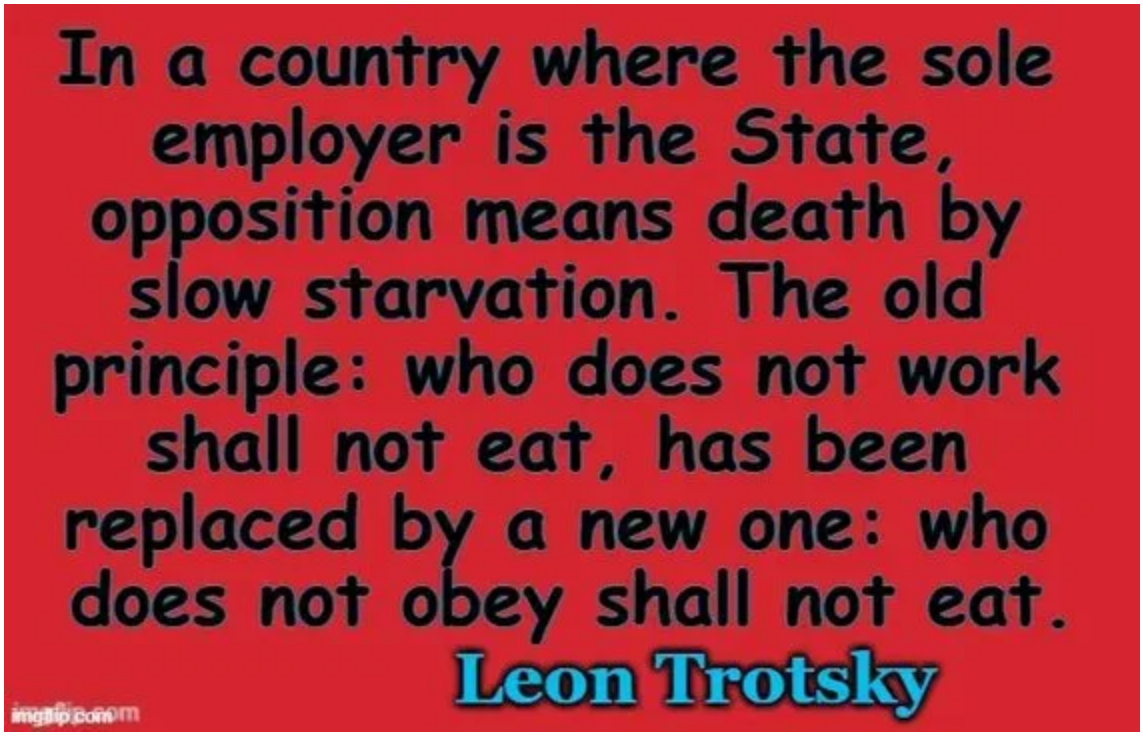
Here is a reminder of what UN Agenda 2030 mission goals are. Remember that the WEF is the mechanism whereby these goals are implemented in countries around the world.

We are well on the way to these goals. But if you refuse the digital ID it stops the heart of the tyranny because then they cannot control you and your money (use cash).

However if they eliminate cash, implement digital ID and digital currency, they have you over a barrel and can prevent you from working.

One of the Agenda 2030 goals is all businesses run by the state. They do not need to be owned by the state but only controlled through what Klaus Schwab called

stakeholder capitalism. That is really a form of communism, a capitalist economy in a state-controlled society. This is very similar to what Leon Trotsky proposed for the Soviet Union.



If you don't obey you are locked out of a job, and if they control all other aspects of production, farming etc, then it means starvation.

Post 1917 the Soviet oligarchs introduced identity papers which were required to hold a job, take some form of transportation and have a place of residence. Many of the poor were refused these identity papers and couldn't travel into a town or city to get food or as farmers sell produce. Many starved as a result.

Keir Starmer is a communist and it has been the Fabian society communist goal for a one-hundred-year takeover of the Western world through gradual implementation of the communist agenda. Now it is called Agenda 2030.

We have been heading for this outcome for a very long time. Many hoped that the election of Donald Trump as US President in 2024 was going to turn the tide on this but he has turned out to be just another pawn in the hands of the satanic globalist oligarchs.

It is true some revelations have come to light through his presidency but some key ones have not. It would appear that he is controlled by dark evil forces through his association to Jeffery Epstein. Those evil satanic forces control the world banking system which is behind the push globally for digital currencies and digital IDs.

It does not seem that the alignment of BRICS nations, and their alternate currency trading platform M-Bridge will stop that happening. A case in point is that the communist country of Vietnam just mandated a totally digital with bank accounts and currency, and cancelled 86 million bank accounts for those who would not comply with the digital ID system which required biometric identification.

The right to work, or the ability to buy and sell controlled by a centralised government controlled digital ID is very reminiscent of what is popularly known as the mark of the beast.

> 16 And he causes all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: 17 And that **no man might buy or sell**, save he that had the mark, or the name of the beast, or the number of his name.
>
> Revelation 13:16 AKJV

However verse before this one says:

> 15 And he had power to give life to the image of the beast, that **the image of the beast** should both speak, and cause that **as many as would not worship the image of the beast should be killed.**
>
> Revelation 13:15 AKJV

Jesus speaking to His disciples asked them who image was on a Roman coin (Luke 20:24). At that time the beast was Caesar but the image of the beast was the currency.

Now we have a similar situation. The image of the beast is also the currency but this time they are creating a digital image of the beast. Note China has already implemented a digital currency and a digital control grid with their social credit score. This gives the authoritarians power over the people.

So what difference is it when once “free” Western nations implement exactly the same control grids through digital ID and centralised government cryptocurrencies after they have eliminated or massively restricted cash?

People already worship the image of the beast in their worship of or love of currency. I use the word ‘currency’ because fiat currency is not money. All governments ‘print’ fiat currency and devalue it to zero in a massive program of theft. They say price inflation is the cause but they create the inflation in the first place with their ‘money printing’ scam.

Gold and silver are money but if you love them you also can fall into compromise like most of the world leaders have already.

A commentator from the UK, Neil Oliver said on his show in regards to Starmer’s digital ID (source).

> “The desire to bring forward the digital ID was there years ago. And it was understood… that the British people would not accept it. So problems had to be fomented to make people desperate to accept this as a solution.”
>
> “Hence the opening up of the borders, and the mass immigration onto these shores that has stoked division, has stoked fear.”
>
> “And the hope has been that people would accept the digital ID as this solution to the problem. But it’s entirely bogus.”
>
> **“All people have to do is not comply and this thing falls flat on its face. And I am convinced that that is what’s going to happen.”**

I hope he is right but **I do think that the masses will accept it**. They did for the COVID19 bioweapon shots. For the most part they are mindless sheeple. It also seems from the text in Revelation 13 that the beast, the antichrist satanic globalist ruler, makes a lot of progress towards the masses accepting him, and his image.

But let me end with a warning from Dr Mike Yeadon with which I agree.

> "I will NEVER take a Digital ID. If that means losing my bank account, so be it. I won't live as a slave in a digital gulag, beeping for insect-flour bread."
